4D armrest: the armrest can be lifted up and down, sliding forward and backward, left and right rotation/stepless rotation adjustment, width adjustment function

What kind of office chair is more comfortable?

After sitting for a long time, the body will bear a certain amount of pressure. Many people will be tired after sitting for a long time. Some comfortable office chairs will indeed relieve it, but it is recommended to get up and stretch your body a little after sitting for a long time.

Breathable spring headrest
Cervical spine comfort experience
